Rev. S. Jaeckin

Dear Bro.

Doubtless you will be glad to hear from us, and so I will write a word or two.

When we arrived I announced that I would preach the coming Sabbath, not knowing that it was Rev Beach's day. However, on Sat. he sent me a note inviting me to preach for him, and I accepted, having a full house. Last Sab. the audience was about as large. This Sab. (8th) I purpose to preach up the St. Vrain, and the following one here. There are two reports concerning our Congregationalist brethren: one is that Rev. Beach will

hold on until a successor arrives, and another that they propose to give up their organization and unite with us. They have called on us, and of course we know no difference in our treatment, or in social calls between the two denominations. All seemed very glad to have a minister and gave us a hearty welcome. I design calling on all the families in town and endeavour to induce them to attend some one of the services. I have looked after the church lots, and things look all right, but I will tell you about when I come to Denver, which will be soon.

We are boarding at the St. Vrain, but have rented a small house for $12.00 a month, and sent home over a week ago for bedding &c, so that we hope soon to be in "our own hired house."

which contains 2 rooms below, and a shanty kitchen, + 2 unfinished rooms above, in a rather chaotic state.

Our friend Mr. Stewart of Penn. has been on + bought some land + will move out this fall with 2 other good families — he will be a great help.

Where can I buy a map of Boulder Co. such as you have in your study? I must have one, as I want to know all about my parish + places adjacent that may need preaching.

Mrs. H. joins in kindest regards to you + Mrs. Jackson. When we get "fixed" we hope to see you out — the latch-string always hangs out for you. In haste.

Yours fraternally

Dear Bro Jackson.

I scarcely know what report to make to you concerning this field. Looking at it as a missionary field I see nothing particularly discouraging. On Sabbath morning the Court House was very full. In the afternoon the congregation was not so large, partly I think in consequence of the hour of service 4½ P.M. Putting all things together I think the field is rather encouraging; and one that in the near future will yield a fair return for any amount of work no matter how large.

I am of the same opinion as Bro McCaddon that you had better make a visit here as soon as possible — the sooner the better —

They are looking for a coming of the Bro from the Auburn Sem. as soon as he comes. I would advise that at least he be sent here for a Sabbath even if he should not think of settling at this point.

There are some things that had better

be talked over than written – it will be more satisfactory.

I shall probably go down to Denver on Monday next

Very truly yours

My friend: —

Having learned from your letters to Rev. Smith, & Mrs. O. B. Smith, but more particularly from the letter of the latter, that Rev. Semple would be here on Sabbath the 15th instant, I proposed to go to Central City, on the 14th; but, acting on the suggestion of Rev. Smith, that it would be best to ascertain whether there was any certainty of Rev. Semple coming at that time, I address you this Postal card, which is the first one I have yet used. — My good wishes to yourself, & family. — Good day!

Rev. Sheldon Jackson-

Dear Bro

Yours of May 30th has been received. I am not sure I can answer your questions. A minister here ought I think to have a salary of $1200 a year at least. I think with a small family he could live comfortably on that amt.

I do not really know how much can be raised for the support of a minister here. It will depend somewhat on his popularity. The trial has not yet been made & I suppose will not be till a Pastor is selected. I think four or five or probably even six hundred can

be raised. This is conjecture on my part & I may be deceived. I think this point should be recommended to the Board for $800. This is the amt. that Grubb was recommended for.

Bro. Thompson preached four sabs. since two while I was in the states & two since my return. one of which I had to preach for him in order to get him to come. I think it would have been a blessing to our cause if he had been here.

So far as I can learn Mr. Pattison is liked here. I think him suited to the place. I wanted Mr. Armstrong to have the matter in hand whether the cong. would call him as their Pastor. He thought it better to wait till the Auburn man is heard. Pattison is a respectable preacher & I judge a good worker. Will send the church plan.

My dear Brother.

Your kind note came to hand this A.M. Glad to hear you were to have been in Cutral last night. I hope they will have a supply for next Sabb. The Sabb. following I expect to be there myself.

I feel utterly discouraged in regard to raising funds. I have met with no encouragement at all — Called this A.M. on one of our wealthy nabobs & got — $5.00! Perhaps you and I together can try the virtue of letter writing sometime, after I return. I find I can succeed better at that. I spent a Sabb. in Brooklyn for the express purpose of getting aid from Dr. Cuyler &

They seemed ~~much interested~~ & Dr. C. said they would give me their whole appropriation next year — but that this year they were full — And so said everybody —

Drs. Van Dyke — Campbell — Sayen — Mc. Elwain — & C & C

Query — If all the places are filled up in Colorado & Central Kansas, will you start a new colony for me & set me to work?

The 3rd church here is vacant — or about to be the pastor resigned yesterday.

Affectly Yrs. Bro

J. G. Lowrie

P.S. Hold Golden open if you can without damage until I return. I have some hopes that Webster will yet go there.

Dear Brother.

Your letter from brother J. M. Anderson is before me. I write him according to promise immediately on receipt of box, and supposed it was received by him long ago. Will write again.

The C. S. P. was received - Thanks -

I have called on Mrs. Baker - am much pleased with her. Think she will be of great assistance to us. I have secured the use of an Organ & she will play for us. Music has been our great need in Boulder -

Rev. Sheldon Jackson -

Dear Bro -

Your favor was received on Friday evening. On Sab. morning I read it Mrs. Armstrong & Luccelins - They expressed themselves as rather disappointed that Mr Fink had not come on according to previous arrangement - But after talking over the matter they thought it better to detain the Congregation & take an expression as to whether they would invite Mr. Patterson to come as a supply for a year -

I accordingly read a part of your letter to the Congregation & invited them to remain after service for this & other purposes - The vote was unanimous to invite Mr. Patterson to supply the pulpit for one year at a salary of $1200 - I accordingly wrote him in reference to the action & sent the letter by the back driver to have it mailed on

the cars at Gray.

I went down to town about noon to-day & found there was quite a feeling in reference to the action of yesterday - They all admit that Bro. P. is a good preacher - They find objections to him as a man - My judgment is that a few of them supposed that some of us had conspired to put Patterson into the congregation & feared that they would not have the credit of it - One thing is sure that their objections were an after thought - Some of those who the most determined in their opposition had previously told me that they would be entirely satisfied with Mr. P.

I will say nothing & let them expend their gas - In the mean time if it is possible to do so I would think it well to have Mr. Fink come & spend a Sab or two here - I sent a telegram to Gray to be forwarded to Mr. P. not to come till he would hear from me - I have just finished a letter to him saying that in my judgment under existing circumstances he had better write the Congl a letter declining the invitation. I do not think the people will be likely to secure the services of a better preacher. Kind regards to Mrs Jackman & the little ones -

Dear Brother
Canon City, Col. Terr. June 6th, 1873.

I was exceedingly sorry I did not receive your letter of the 2nd inst. in time to answer it by return mail. I am sorry you were disappointed at not seeing me. I did not see, in either the Rocky Mountain Christian Advocate or the Western Methodist, the notice of your appointment to preach at Colorado City on the 7th inst. I did not suppose that you would be there, and so did not go. I am sorry that you were disappointed.

It was a considerable disappointment to me, to be unfavored with the presence here either of yourself or of Bro. Hamilton, at our Quarterly Communion. I do not know why he failed to "put in an appearance"; for I have received no line explaining the matter. But the Communion took place, and it was an occasion of much comfort. I received into membership six persons, all of them adults but one, and all of them on profession of faith. This is much better than either of the other churches have done, in gathering up the results of the late special efforts. The Baptists received eight, but they were all quite young - some of them, I fear, too young to realize what they were undertaking to do. They failed to gather in any adults. The Cumberland brother received only one; and I have not heard of the Methodist brother's receiving any. Mrs. Boyd (the Landlady of the Canon Hotel) and her daughter are among the number received.

into our ranks. Mr. Boyd will come in, next time; and so will several others.

And you been able to be present, and to give our cause a little special help, we would undoubtedly have secured several more, ~~than~~ I in addition to those that I look in. Come down, as soon as you can, and we will have a good time. You can live at our house, while you remain. Why can't you bring your wife down to Canon, and let her enjoy the Soda Springs, &c.?

The people, throughout the County, are to vote on the issuing of bonds to secure the finishing of the R.R., on Saturday. The Company demand $100,000 in bonds, before they will pick up the road from Sabrina (8 miles distant.) Inclosed you will find a poem for your valuable paper. Please make the proof-reader carry a steady eye, when he shall correct the proof of it. I shall endeavor to go to Fair Play next week. It has been so dreadfully raining, lately, that I have not ventured to go any where, mountain-ward. Please let me know when the new man is to take charge of that part of my work. If he is there already, I say let him at once

Bro. Sheldon Jackson-

Dear Bro-

Yours was duly received. I read it to Bros, Armstrong & Beeelins - It did not seem to effect much change in their feelings. They still persist in the statement that Bro. Fiske was most positively promised to Ft. Collins. This I believe is the fact. Mr. Thompson gave them the fullest assurances on this point & went so far as to arrange for boarding for him & Lady - He may have done this without authority, but the impression left was that he was bishop of Colorado & his promises were received as equivalent to certain fulfillment -

I insisted on the above named brethren stating the facts of the case to Bro Patterson - They would not do it, but did not put in an appearance at services yesterday - After service

last night I detained Mr. Patterson to see him just how matters are. He asked me what I would advise him to do. I had no advice to give him but told him what I would do in like circumstances. He has concluded to leave & under the circumstances I cannot but regard the conclusion as wise. He would have little prospect of either comfort or usefulness.

There is no present prospect of having this point supplied. Could you not arrange to have Dr. Sample come here. He, I hear, has gone to Goldsboro for the present. Would not Bro. P. visit there & let Sample come here. He would be satisfied with here & be instrumental in making this enterprise a success. There have gone quite a number of Pres. from this spring.

We ought to have the Sacrament

of the Supper dispensed here & the
names of all Presbyterians gathered
up & enrolled - Could you visit us
range when you come in July
to dispense the Supper here - I would
like if you can that you would
arrange for the first part of the
month as I want to start with
my family on a trip among
the mountains about the
middle of the month -

Please let me hear from
you at your earliest convenience -

Central June 30th 1873

My dear Brother —

There are several weighty reasons why I am anxious that you should spend next Sabbath (July 6th) with me at Central —

1. You have not preached here for a great while and the people are getting impatient to hear you — especially as you did not preach for them once during my absence, though they confidently expected you —

2. We are making vigorous efforts to shoulder that church debt — I think we are going to succeed; but we want all the encouragement and backing that we can get. I think for your own sake, as well as for that of the church here, you had better come up at this crisis; and show them how willing you are to help them.

I want the Central Church (to be more than in name) to be your stanch friends and I tell you faithfully now is the time to secure them.

If the plan we are pushing succeeds & this church is put on a firm basis, it will be one of the most influential in the territory — "A word to the wise &c"

3. Next Sabb. is to be our Communion and we expect a joyful time. It will be a most happy time for you to be here —

4. Your coming will be a great relief to me as I have had the process of acclimation to undergo anew & find it very trying, especially in speaking.

5. last & not least I am anxious to see you — & talk over some matters.

Have had good congregations since my return.

Please let me hear from you speedily —

Ever Yours in toil & love

J. G. Lowrie

Pro. Jackson,

Glad I have not to copy plans. Stein, an architect lately from Denver, has estimated the cost of church 30 by 60. Plastered all through. with parsonage finished 33.00. Suppose he'd put up good building but is regarded as pretty high in price. Have submitted it to other men & shall hear their report tonight. Fine prospect of R.R. & no grasshoppers & no doubt about the expediency of building church.

But as I understand it we are not organized as a church yet, because no letters have rec'd.

There are only 2 that have letters as yet. Have spoken to R. Chappel & wife both theirs. Also to Markalls. Think its not best to organize with so small number. There are two bro.s at Almaby Mame of Austin who are good live Presb.s One is in ill health but other Joseph A. Austin has assisted greatly in organizing a S.S. Mem of 30 members. He dont know as he will stay long but did remarked that he thought he cd do more good here than in No. Suggested to him that he get letter & join us & so become our elder. Chappel might not like it but he is so worldly, cant get him to attend church but once since he b. here. & is not any too honest in trade.

I write to know if you suggest what I better do about organizing.
Can't I organize without a public manifestation + receive him only who have letters without any sermon + if can, get an elder ready + elect him then. Then at regular communion receive others on profession.
It seems to me we should have an organization as a nucleus before we commence on building.
See your letters names on book as if members but no letters rec'd. Only 4 of the 8 here now. Rec'd our new S.S. singing books + with my organ in church yesterday morning. Last eve also I played organ sang preached + also lit up church. Had good attentive audience. Preached at Alma twice.

Have rec'd many papers from you which I keep circulating. Rec'd S. S. Visitor 25 copies. This morn + 2 copies of Pres. at Work all free gift.

Faith is not so lively as it has been. Stein built your public school house. Do you know of him? He is building Mrs. Paul's new house.

Rec'd a letter fr. Mrs. Robb. Think we are better off than they. Don't know as I'll be able to settle up with you till Sept.

How long should Elders be elected for? Can it be one year?

Dear Bro Jackson

I could not conveniently go to Cheyenne on first Sabbath, but on the Sabbath following I can easily make arrangements to go. I supposed, from some report that reached me, there was a man on that field.

I will ride over on Saturday 16th

It seems to me almost impossible to tell what shape matters will assume here. One thing I think is becoming more evident, namely, that the congregation will have to do what it ought to have done before — elect a new board of trustees, and then there may be some hopes for the erection of a church building. As it is the present trustees seem determined to thwart every endeavour to procure

a house of for public worship and every measure for the promotion of presbyterianism. I think however this state of feeling will die out of its own accord if no notice is taken of it. I have not yet learned what the trustees determined to do at their last meeting, but they learned the completion of the temporary church was by the order of the board, and since that so far as I know they have been keeping quiet

My Dear Brother:

Your Card of the 2nd Inst. came to hand a couple of days ago. I was glad to get it. Think the date you mention will be most suitable for your visit.

Matters look encouraging, and I think we will be ready by that time for a more decided advance than has yet been taken.

The Camp is unusually dull for this season of the year. But it is likely that a couple of weeks more will give it a very different aspect. The snow is about gone; and Strangers are beginning to flock in.

The attendance at Church has been very encouraging of late; and the interest seems to be steadily increasing. A good many are thinking about putting up a church edifice. And if money was not so scarce I should think an early & energetic move in this direction entirely proper. The dullness of the times may retard the erection of a church building, but I believe it is an advantage to the growth of the spiritual edifice which we are trying to raise.

Hope you will be able to stop several days when you come. I trust you would find it both pleasant & beneficial. The weather is delightful.

Your brother in the Lord,

J. P. Schell

—Thanks for those papers.

July 12th 1878.

Dear Mr. Jackson:

I know you have not forgotten us, for the papers you have kindly forwarded, have shown us this again and again: yet I have been looking for a letter from you every mail since you departed. Possibly I misunderstood you; but our impression was that you would write us immediately on your return, telling us about the R. R. prospects at Canon and also in regard to prices on the list we gave you. We did not write us sooner, partly because expecting to hear from you every day, and partly because of the fact that I wished to be able to report on my hay & Grain

I had intended going there the day
before you left; but although
a week I heard such reports as to
revenues of the place, hardly yet getting
started, that I gave it up. On Saturday our
paper came out with a little rolling
it wonderfully — an exaggerated ac-
count for which the next issue apol-
ogised. This account, however, de-
termined me to go down and see
for myself what the prospects were.
To save expense, I went down with
Mr. Leask, who was to bring up some
goods from Sargent for me.
While I was in G. that was a special
car came there with R. C. officials
from Winnipeg, and from Mr. Brown of
Chubb's, Brown & Co., I obtained all
of the information I could.
After getting all the information I possi-
bly could, I had to form an opinion
as to the probable future of the place;

It is, however, only an opinion. So long as it remains a railroad terminus, it will have considerable traffic — as the freight one begins to pass that way. Mr. Brown said he did not expect much business in the forwarding line, before next Sept. After the place ceases to be a terminus, I hardly think it will be of as much importance with the R. R. as Las Animas is without it. The temporary removal of the commodations being prepared for the forwarding houses, indicates only a brief stay there. Mr. Brown is interested in the town — owning half, they say — but he did not talk as one as though he ~~could~~ had any idea that it would be a place of permanent importance. I particularly noticed that he did not even comment himself by expressing a portion of opinion

id that effect. Of course he took
different view from what he
would to one who was desir-
ous of purchasing a lot. He was
quite courteous. Still, he was
cordial, offered me any assistance
he could render, invited me to call on
him and their house so soon as
they got settled, for any facilities they
could afford, and seemed interest-
ed in anything that augured well
for the present or future prosperity of
the place. As to present appearances
of the place: I found one grocery
store in a tent; two restaurants
and one hotel — very limited and
small buildings; a number of sa-
loons, and some buildings
in course of erection, which are
said to be intended for business
houses. The landlord told me that
he knew of no family in the place.

besides his own. He was raised in a Pres. family. His wife is an Episcopalian. Both were very cordial and offered me the use of their dining room, provided that depot should not be completed when I came to hold services. The landlady is a real lady, and I was much encouraged to meet her. She has worked with our ch. in other places, and will cordially assist us there. I made no appointment definitely, but told them I expected in a few weeks to return, & would probably arrange to preach for them every third or fourth weeks.

Mr. Brown said he thought the plan would hardly begin to take shape before Sept. I think Mr Jones from Poplar Ra made no arrangement for services, and gave no promises, espec

as I could learn. I will by this
posted as to the progress of the place.
I wish you would write more
but I would [illegible] on your
time & mine. At this place, al-
most everything has been at a stand-still
on account of indefinite & conflicting
reports in regard to the R. R. from Car-
son. Today we have what most per-
sons consider authentic reports that the
laying of the track has actually been let,
work to be begun on the 20th inst.
It is the intention to bridge the river
with the crossing at this point, or a-
bove or below. Efforts are being made
to take it away from us. The citizens
held a meeting this week to see what
can be done to secure it here. Until this
point is determined, no more improve-
ments will be made. Mr. Peck has
been waiting from day to day before be-
ginning that house for us; and I re-

it well not be long until we know
the road will touch this place. We
have been unable to get any place to rest
house in, though we've been on look out
constantly. Our goods have come, and
we could take possession of our house
any day. When that longed for day
will come, it is impossible to say.
We have changed our boarding place;
but, as my wife says, it was "jump
from the frying pan into the fire."
Mrs. Wright's boarders left, and she kindly
offered to take us at $15 per week. Without
knowing aught about the place,
nor, we accepted. We really have
no such privacy at the hotel, and
will take — well, the less said the better
one we have more than one wished
ourselves such at the hotel. Still,
they are very kind, and I judge they aim
to do the best they can; only it seems hard
to get without fruits & vegetables, except a very

limited quantity of canned article.

I have not tasted a potato even in two days — save a raw one which I picked up at the depot last week. I peeled and ate it with a relish. (Well, I didn't intend running off into a complaining strain.) Yesterday I preached twice to good and attentive audiences. The M.E. man has been here once. I think we have to hold ourselves. If the road comes in point, we will aim to build. I think the first church built will be very liberally aided. I am becoming pretty well acquainted in the place. Finish I have the friendship and confidence of the business men — the best men part of them. Mr. Howard thinks I can get hay for our Coach line. I have made some short estimates in it, as to cost of keeping a team, and do not see, believe I could be able to bear the expense of it, with the salary promised me;

Dear Bro. Robb—

We are glad to hear from you & of your safe arrival in your field. I have written to a Sunday School to see if I could get some help for you in the matter of a team to pass from place to place—

We have added $200 to your Salary making $1000 & I do not doubt but they will then give you $300 It is more than the young man in Mem-

Dear Brother Schell

Your letter came a week ago, I am at fault, but must plead some indulgence on account of circumstances. As to the case of J. G. Hutchins, I suppose that you have found him, and as nothing noted this morning; when in accordance with your request I went to Mr. Travis. He will make enquiries and let me know the result. I have noted the facts in enclosed & return it.

My field here is grand in many ways. After my first sermon I told Mr. Egbert that I would not have come could I have seen it before committing myself. This is true no doubt. But I am realizing that it may be the most fortunate move of my life. It is like throwing a boy into the water; if he succeeds in getting out he may make a swimmer, if he drown he is sooner done with a world in which he was too timid to act.

I am forced to do pastoral work in order to have anything of an audience. Of course this will develop whatever capabilities in that line may be dormant and at home would have remained so. On Saturday I go to Bullionville 12 miles away and preach at night. Last Saturday I called on a man sick with the chills, in a lodging house. I walked up to him with: How are ye? — Pretty weak, isn't it? The fellow was limping in about half a minute, and told me about having the chills down on the Chickahominy. He mistook me for one of the mill hands, but was just as well pleased to all appearance when he learned my true calling. ——

Since beginning this I have had a call from

the Episcopal ministers - with whom I hope to maintain most fraternal relations.

I have many good families to work among. Altogether, am satisfied that the next few years will be well filled - even if ashes should be to remain here.

As to results, I suppose I am inclined rather to rest & hope. But I do not think we can look for results in the same form as at home. I have to get people out to church - work up the Choir, &c. They take hold well; but of course we have to push impulse till the snowball tone has been acquired. And they may be expected to pull after while when they find that it is good to help in such a cause.

Fraternally Yours
H. B. MacBride.

Dear Bro. Welch:

The enclosed letters I have copied for Brother Jackson, you may also be interested in their contents.

I have not been very well for a few days past. And felt very tired yesterday. But I have no particular cause for discouragement. We had about 20 out at our "singing circle" Saturday eve. The services on Sunday were well attended. The room was filled in the evening.

The Committee appointed a week ago are doing their duty faithfully I think. I don't know yet how much will be raised for my support. The reports will not be handed in till after "pay day".

I think our building committee is the best that could be got here. They all appear interested & will work well together I believe. We are to have our second meeting this evening, and I expect that the next week will reveal what our prospects are in this direction.

I have been committed in reference to the formation of Good Templar's Lodge. I have never yet been connected with any "secret society", but I hardly dare hold back from a move of this kind here.

Kindest wishes to Brother Pearce & family.

Yours truly in the Lord

Dear Bro Jackson

Your favor of July 24th is before me - accept my thanks for your kindness My little churches are prospering well - The Congregational Church at this place has offered us their house to preach in, until we get an house of our own - Bro Thompson their Pastor occupying our Sabbath P.M. This will be good for the church that was so much opposed to us at first - An article in the Advance (Chicago) came near spoiling this arrangement but we are assured that no citizen of Boulder wrote it - that it is not the spirit of this church, but that they as a church entertain the kindest feelings towards us.

Bro. Hunyman wife made me a visit since you were here & we enjoyed a ride up the canon. I am going down to see him this evening & arrange for a trip in to the middle Park.

I was much pleased with him & his wife also — We & I are acquainted with quite a number of the same persons.

July 28. 1873

My dear Friend - I perceive that nearly 6 weeks have gone by since the date of your last letter & they have been very busy ones to me so that I can only hope that the absolutely necessary work has been attended to - I had a letter from Mr Wagner the new minister at the Hague, and he is quite desirous that a new church should be there - I have heard from other persons also that the present one is in a very dilapidated state, and of requires &c - & that there is but little hope to build it up, as it stands at present - A good part of the property belongs to our Board, but a piece was bought in the 3rd Ward to save a lawsuit, as

by some mistake. The building stood partly on the other piece of land - the new Meeting House is in the middle of it & the Trustees would sell to them their part of the land for what it cost them & then the whole would rest in us. If we could retain for an Ch & School & Parsonage & sell the rest at a price that would pay for them with what the people could raise themselves on Ch, do you think it would not be advisable to do so. I suppose the old buildings are good for nothing as they are, & would bring in but small rent. & the Property is for the good of the Ch & the cause - You need not say I wrote you about it, but as you have been there, I know

all about it, I would like one word from you, when you have time -
I am glad to hear of the settlement of the Mummy new Minister - So think that poor Mr Clark was so soon suddenly called away - He could not give a Lads for a poor Minister to preach the Gospel along the line of the N.I. & Let Known a rich Yng men who are dying tomorrow, who have no Hope Lads where they like - I made 3 several appeals unsuccessfully, I can only feel that I did what I could -
I am sorry you have not been able to get up any Aug Dec - but trust it will come in time - Perhaps if

You send us the name of some lady, we could write her & so get one started, if it only brought in $5. Any little help by beginning grows.

I am still in the city, High & feel much worn by heat & work. The sister of whom I wrote you, was buried a week to-day. She has been much better from suffering, restlessness & little rest. I hope you and family keep well. Anything I can
